

Questions to Ask Your Doctor

About a Diagnosis of Invasive Candidiasis

Why do you suspect invasive candidiasis?

What test will you order to check for invasive candidiasis?

How is the test performed? Is it a blood draw? Or something more invasive?

Will you do any imaging?

What does the test measure?

How soon will I get my results back?

Might I require additional testing?

Will you wait for the results of the test to start antifungal therapy? Why or why not?

What happens if the test is positive for invasive candidiasis?
