

Questions to Ask Your Doctor

Questions to Ask the Doctor About a Diagnosis of non-*Aspergillus* Mold Infection

Why do you suspect that I have a non-*Aspergillus* mold infection?

What test will you order to check?

How is the test performed? Is it a blood draw? Or something more invasive?

Will you do any imaging?

What does the test measure?

How soon will the results get back?

Might you require additional testing?

What happens if the test is positive for a non-*Aspergillus* mold?
